ATTN: FCC

To Whom It May Concern:

I am writing to express concern over issue 04-233 and discussion that Low Power FM might take over radio frequencies currently being used by K-LOVE in my area of Ohio. K-LOVE serves my family, my community, and myself, by providing commercial free Christian radio. We rely on K-LOVE for quality music, without profanity or negative language or lyrics. K-LOVE also offers a local bulletin board that local churches can place information on regarding upcoming events at a particular church in the local area. Furthermore, K-LOVE is a positive and uplifting station that I rely on for music almost daily. Without K-LOVE, I would be unable to listen to Christian music in my area.

At this time, I respectfully request that K-LOVE continue to be heard on 102.3, 104.3 and 96.9, all stations in the Wilmington, Dayton and Cincinnati area that can be heard in this part of Ohio. It is important for K-LOVE to continue broadcasting in this area. Please do not allow Low Power FM to take over for an established radio station. K-LOVE is something that is of public interest. There are many hard rock and other stations that promote violence, so I believe we should have stations that promote positive, clean living.

Thank you,

Denny Kirk
